Why choose the Hlavinka Equipment Technician Development Program?

- Get a degree!
- Attend school on a shorter semester than most other college students!
- We help pay for school!
- Great tool discounts!
- Excellent learning & networking opportunity!
- Learn from some of the best instructors and technicians in the business!

Technician Development Program

Program Length: Five Years

Year 1: Junior and/or Senior year in high school, work during the summer and/or part-time during school year

- You have an opportunity to see if working as a technician in the agricultural equipment field is right for you

Years 2-3: Attend OSU-IT

- While attending school Hlavinka Equipment serves as sponsoring dealer
- You are provided a set of uniforms
- Hlavinka Equipment will agree to pay a pre-determined percentage of your semester's tuition contingent on signing a two-year employment contract
- Contract goes in to effect upon successful completion of degree program

Years 4-5: Fulfill two-year employment contract

- Continue hands-on learning process
- Tackle more demanding repairs
- Weekly time spent 'shadowing' an experienced technician
- Monthly progress meetings with Service Manager

OSU-IT Degree Details:

- Located in Okmulgee, OK
- Associate in Applied Science with Major in Diesel and Heavy Equipment Technology
- Program emphasis in industrial and farm equipment

OSU-IT Degree Details Cont'd:
